

ADVANCED MODAL VERBS PRACTICE WORKSHEET

B2 Level - Environmental Ethics & Corporate Responsibility

Student's Name: _____

Date: 10-04-2025

PART 1: MODAL PERFECT FORMS - EXPRESSING CERTAINTY, SPECULATION, AND CRITICISM

Complete the following sentences using appropriate modal perfect forms (must have, should have, could have, might have, etc.) based on the given context. Only fill in the modal expression in each blank.

1. The CEO _____ thought about the environmental impact of the new factory before approving the project. The pollution levels are now far beyond acceptable limits. (strong criticism about past obligation)
2. The local wildlife _____ been affected by the oil spill. They found many dead animals along the shore that weren't there before. (logical deduction with strong certainty)
3. The government _____ implemented stricter regulations ten years ago. If they had, we wouldn't be facing such severe climate issues today. (unfulfilled obligation in the past)
4. The environmental scientists claim global temperatures _____ been increased by human activity, but some skeptics still demand more evidence. (possibility but not certainty)
5. The renewable energy sector _____ received more investment from the private sector. Its growth has been slower than projected. (missed opportunity in the past)
6. The company _____ introduced the recycling program earlier. They wasted five years implementing ineffective strategies instead. (better alternative in the past)
7. The protesters _____ been surprised by the sudden policy change. That's why they weren't prepared with counter-arguments during the press conference. (speculation about past situation)
8. The international climate agreement _____ been signed by all major industrial nations. The fact that two countries refused to sign severely limited its effectiveness. (necessity in the past that didn't happen)

PART 2: MODAL VERBS IN CONTEXT - ANALYZING FUNCTIONS AND IMPLICATIONS

Read the following excerpt from a corporate sustainability report and answer the questions below:

"Our company must reduce carbon emissions by 30% within the next five years. This target should be achievable if we implement the proposed changes to our manufacturing processes. While some stakeholders believe we could have adopted these measures earlier, we maintain that the technology

wasn't sufficiently developed until recently. Our competitors might face similar challenges, but they needn't have invested so heavily in fossil fuel infrastructure. Experts believe that the industry as a whole ought to transition to renewable energy sources immediately, though this cannot happen overnight. Our Board of Directors must have considered these factors when approving our new sustainability roadmap, as it reflects both ambition and pragmatism. Had we continued with our previous approach, we would have missed our environmental targets by a significant margin."

1. Identify the modal verb expressing:

Strong obligation in the present: _____

Recommendation or advice: _____

Missed opportunity or criticism about the past: _____ (2 examples)

Speculation about competitors: _____

Unnecessary action in the past: _____

Moral obligation: _____

Impossibility: _____

Logical deduction about the past: _____

Hypothetical outcome in the conditional: _____

2. Rewrite the following sentence using a different modal verb while maintaining approximately the same meaning: "This target should be achievable if we implement the proposed changes."

Your answer: _____

3. What does the phrase "must have considered" imply about the writer's level of certainty?

Your answer: _____

4. How would the meaning change if "could have adopted" were replaced with "should have adopted"?

Your answer: _____

PART 3: MODAL VERBS FOR DIFFERENT FUNCTIONS - REFORMULATION EXERCISE

Rewrite each sentence using the modal verb in brackets, keeping the meaning as close as possible to the original.

1. It is necessary for corporations to disclose their carbon footprint annually. (must)
2. I am certain that the CEO was aware of the environmental violations. (must have)
3. The company failed to conduct proper environmental impact studies. (should have)
4. Perhaps the local community was not informed about the risks. (might not have)
5. We are obliged to comply with the new environmental regulations. (have to)
6. It would be advisable for stakeholders to attend the sustainability meeting. (ought to)
7. There is a possibility that renewable energy will become more affordable next year. (could)
8. The engineers were able to develop a zero-emission engine. (managed to)

PART 4: DISCOURSE ANALYSIS - EVALUATING MODAL CHOICES

Analyze the following pairs of sentences. Explain the difference in meaning, implication, or tone created by the different modal verbs used.

Pair 1:

A: "The company must implement these changes immediately."

B: "The company should implement these changes immediately."

Difference: _____

Pair 2:

A: "The CEO might have known about the pollution issues."

B: "The CEO must have known about the pollution issues."

Difference: _____

Pair 3:

A: "Corporations need to take more responsibility."

B: "Corporations ought to take more responsibility."

Difference: _____

Pair 4:

A: "The scientists couldn't have predicted these consequences."

B: "The scientists shouldn't have predicted these consequences."

Difference: _____

HOMEWORK ASSIGNMENT:

Based on today's practice, note down at least 5 advanced modal expressions you plan to use in your formal proposal homework assignment:

1. _____

2.

3.

4.

5.
